

INTERDISCIPLINARY STUDY FORM

The Interdisciplinary Study form consists of two parts. The first one is the interdisciplinary work organized by the Department Head and in which participation is compulsory. The second is the project support work carried out by student groups or with people from different professions outside the department while the Graduation Project is being carried out. For example, having a carpenter build a table or case for the project.

Disiplinler arası çalışma	Açıklama
Workshops or courses organized by the Department Head	Summarize the activities you have done with students from different departments in workshops or courses organized by the department head and in which participation is mandatory, and comment on the experience you have gained.
Work done with student groups and/or industrial processes for graduation projects	Explain the student community projects you participated in and the collaborations you made with industry during your Graduation Project, apart from the workshops or courses organized by the department head and in which participation is mandatory.
